Dedication

The class of 1954 has the unique honor of graduating in a year that marks the centenary of the Immaculate Conception -- the Marian Year.

In due respect to Our Heavenly Mother we pay tribute to Our Lady in this small volume and entrust to Her our parents, sponsors and patrons.

Humbly we stand before this most pure Mother and in earnest prayer beseech Mary Immaculate to guide and protect our parents, sponsors and patrons to whom we dedicate this book, a token of affection.

Those at the Helm

The Principal

Doubling for Mary -- Sr. Mary Clementine, our Principal, through her constant encouragement to be Mary-minded has brought us closer to Mary and Her Son. With Mary as her inspiration and guide she has instilled in us a love for the True, the Good and the Beautiful.

We appreciate every smile and tolerant pat on the shoulder, every word of praise and the negative shake of the head. We are grateful for her devotion and untiring efforts in guiding our steps throughout our stay at S. C. High.

Take the Telephone Company, for example. Anyone who works for Michigan Bell will tell you it's everything a girl could want in a job.

First, you don't need any experience. You learn your job on the job, and earn a good salary while learning. Raises are regular and frequent. Your income is steady, you can always count on it and you get annual vacations with pay.

Another nice thing about telephone work is that you'll associate with people your own age, just out of school, too. You'll work in clean, bright, pleasant surroundings. Whether you prefer to start as a telephone operator, a teller or a clerk, you'll find opportunities for advancement.

We'd like to tell you more about these and other interesting telephone jobs. Visit us soon, won't you?

MICHIGAN BELL TELEPHONE COMPANY

"A FRIENDLY PLACE TO WORK"

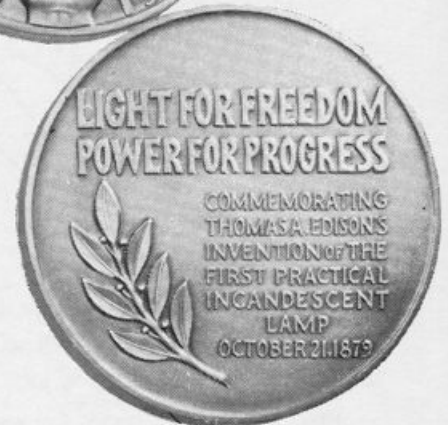

... only the beginning

Ever stop to think what the world was like before electricity became everybody's servant? It's difficult to picture! Electric power serves so faithfully we just take it for granted.

Edison's incandescent lamp, heralding the birth of modern electric service, finally became more than a dream 75 years ago. To help turn this dream into reality, other men provided the finances Edison needed. Their joint achievement is an example of how financial risk-taking and individual ingenuity combine to the benefit of all people.

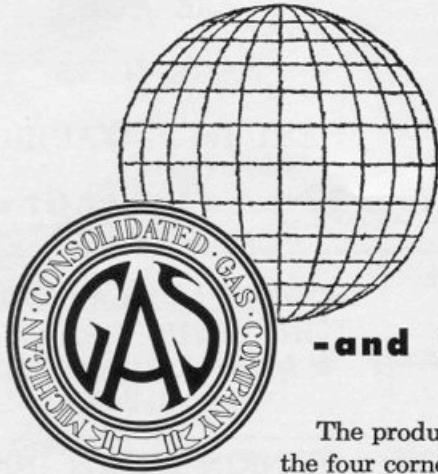

But our present way of living is only the beginning. Electricity promises for the future still greater marvels and better service.

It requires men and women with many skills to provide this service. If you would like to work with such people why not get in touch with Edison's Employment Office?
